- A number of pers ns in Lafayette, as well as in all the countries of Missouri, are using the Weed, and in every case it has given the most perfect satisfaction. Its great advantage lies in the fact that it is simple, but little machinery about it—(the reat desideratum)—and hence is not so easily thrown out of order, as those which are made up in the complex and complicated form. It has but nine pieces to the whole structure, while others vary from three times to ten times as many, rendering their use a source of continued annoyance, by getting out of order. The "Weed" is never out of order. It will run right along for a generation. It is beyond all question, not only the Family Favorite, but the Family Bessing.

 Before purchasing any machine, no matter what is said about them, first examine the "Weed." It has no peer. Send for pamphlets and circulars. Prices as low as the lowest. All styles are made.
